Introduction

This policy is reviewed and updated annually on the publication of updated JCQ regulations and guidance on access arrangements and instructions for conducting exams.

References in this policy to AA and ICE relate to/are directly taken from the Access Arrangements and Reasonable Adjustments 2020-2021 and Instructions for Conducting Examinations 2020-2021 publications. The use of a word processor in exams and assessments is an available access arrangement.

(AA 4.2.1) The purpose of an access arrangement is to ensure, where possible, that barriers to assessment are removed for a disabled candidate preventing him/her from being placed at a substantial disadvantage as a consequence of persistent and significant difficulties.

The integrity of the assessment is maintained, whilst at the same time providing access to assessments for a disabled candidate.

(AA 4.2.2) Although access arrangements are intended to allow access to assessments, they cannot be granted where they will compromise the assessment objectives of the specification in question.

(AA 4.2.3)

Candidates may not require the same access arrangements in each specification. Subjects and their methods of assessments may vary, leading to different demands of the candidate. ALS leads/SENCOs must consider the need for access arrangements on a subject-by-subject basis.

(AA 4.2.1)

The Additional Learning Support lead/SENCO must ensure that the proposed access arrangement does not disadvantage or advantage a candidate.

(AA 4.2.7)

The candidate must have had appropriate opportunities to practise using the access arrangement(s) before their first examination.

Purpose of the policy

This policy details how [insert centre name] complies with AA (chapter 4) Adjustments for candidates with disabilities and learning difficulties, (section 5.8) Word processor and ICE (sections 14.20-25) when awarding and allocating a candidate the use of word processor in examinations.

The term 'word processor' is used to describe for example, the use of a computer, laptop or tablet.

The term 'word processor' is used to describe for example, the use of a computer, laptop or tablet.

The use of a word processor

The centre will

- allocate the use of a word processor to a candidate with the spelling and grammar check/predictive text disabled (switched off) where it is their normal way of working within the centre (AA 5.8.1)
- award the use of a word processor to a candidate if it is appropriate to their needs
- Needs may include
 - a learning difficulty which has a substantial and long term adverse effect on his/her ability to write legibly

Reviewed: December 2020

Next Review: November 2021

- a medical condition
- a physical disability
- a sensory impairment;
- planning and organisational problems when writing by hand
- poor handwriting (AA 5.8.4)
- only permit the use of a word processor where the integrity of the assessment can be maintained (AA 4.2.1)
- not grant the use of a word processor where it will compromise the assessment objectives of the specification in question (AA 4.2.2)
- consider on a subject-by-subject basis if the candidate will need to use a word processor in each specification (AA 4.2.3)
- consider the needs of the candidate at the start of the candidate's course leading to a qualification based on evidence gathered that firmly establishes the candidate's needs and 'normal way of working' in the classroom, internal tests/exams, mock exams etc. and confirm arrangements in place before the candidate takes an exam or assessment (AA 4.2.4)
- provide access to word processors to candidates in non-examination assessment components as standard practice unless prohibited by the specification (AA 5.8.2)

The centre will not

- simply grant the use of a word processor to a candidate because they prefer to type rather than write or can work faster on a keyboard, or because they use a laptop at home (AA 5.8.4)

Exceptions

The only exception to the above where the use of a word processor would be considered for a candidate would be

- in the event of a temporary injury or impairment, or a diagnosis of a disability or manifestation of an impairment relating to an existing disability arising after the start of the course (AA 4.2.4)
- where a subject within the curriculum is delivered electronically and the centre provides word processors to all candidates (AA 5.8.4)

Arrangements at the time of the assessment for the use of a word processor

A candidate using a word processor is accommodated within the main venue unless other arrangements have been approved for separate venue.

Exam logons have been created for the sole use of word processors disabling network facilities when required.

In compliance with the regulations the centre

- provides a word processor with the spelling and grammar check facility/predictive text disabled (switched off) unless an awarding body's specification says otherwise. (ICE 14.20)
- (where a candidate is to be seated with the main cohort without the use of a power point) checks the battery capacity of the word processor before the candidate's exam to ensure that the battery is sufficiently charged for the entire duration of the exam (ICE 14.21)

- ensures the candidate is reminded to ensure that their centre number, candidate number and the unit/component code appear on each page as a header or footer e.g. 12345/8001 – 6391/01 (ICE 14.22)
- If a candidate is using the software application Notepad or Wordpad these do not allow for the insertion of a header or footer. In such circumstances once the candidate has completed the examination and printed off his/her typed script, they are instructed to handwrite their details as a header or footer. The candidate is supervised throughout this process to ensure that they are solely performing this task and not re-reading their answers or amending their work in any way.
- ensures the candidate understands that each page of the typed script must be numbered, e.g. page 1 of 6 (ICE 14.23)
- ensures the candidate is reminded to save their work at regular intervals. (or where possible, an IT technician will set up 'autosave' on each laptop/tablet)
- instructs the candidate to use a minimum of 12pt font and double spacing in order to make marking easier for examiners (ICE 14.24)

(ICE 14.25)

The centre will ensure the word processor

- is only used in a way that ensures a candidate's script is produced under secure conditions
- is not used to perform skills which are being assessed
- is not connected to an intranet or any other means of communication
- is in good working order at the time of the exam
- is accommodated in such a way that other candidates are not disturbed and cannot read the screen
- is used as a typewriter, not as a database, although standard formatting software is acceptable and is not connected to an intranet or any other means of communication
- is cleared of any previously stored data
- does not give the candidate access to other applications such as a calculator (where prohibited in the examination), spreadsheets etc.
- does not include graphic packages or computer aided design software unless permission has been given to use these
- does not have any predictive text software or an automatic spelling and grammar check enabled unless the candidate has been permitted a scribe or is using speech recognition technology (a scribe cover sheet must be completed), or the awarding body's specification permits the use of automatic spell checking
- does not include speech recognition technology unless the candidate has permission to use a scribe or relevant software
- is not used on the candidate's behalf by a third party unless the candidate has permission to use a scribe

Portable storage medium

(ICE 14.25)

The centre will ensure that any portable storage medium (e.g. a memory stick) used

- is provided by the centre
- is cleared of any previously stored data

Printing the script after the exam is over

(ICE 14.25)

The centre will ensure

- the word processor is either connected to a printer so that a script can be printed off, or have the facility to print from a portable storage medium
- the candidate is present to verify that the work printed is their own
- a word processed script is attached to any answer booklet which contains some of the answers
- where an awarding body requires a cover sheet to be completed this is included with the candidate's typed script (according to the relevant awarding body's instructions)

Laptops and tablets

Gable Hall School further complies with ICE 8.8 instructions by ensuring:

- tablets used during examinations/assessments are designed to run for a long period of time once fully charged and are 'free-standing'
- the battery capacity of all laptops and/or tablets is checked before the candidate's examination(s) with the battery sufficiently charged for the entire duration of the examination
- candidates with fully charged laptops or tablets are given the opportunity to be seated within the main examination hall without the need for separate invigilation and power points

Candidates

- candidates are reminded that their centre number, candidate number and the unit/component code must appear on each page as a header or footer
- candidates using Notepad or Wordpad software (which do not allow for the insertion of a header or footer) are instructed to handwrite their details as a header or footer once they have finished the examination and printed off their typed script; candidates are also supervised to ensure that they are solely performing this task and not re-reading their answers or amending their work in any way
- candidates are instructed to appropriately number each page
- candidates are instructed to use a minimum 12pt font and double spacing
- invigilators remind candidates to save their work at regular intervals
- where it is possible 'autosave' is set up on each laptop/tablet
- candidates are present at the end of the examination when their script is printed off so they can verify that the work printed is their own

Accommodating word processors in examinations

Candidates using word processors (including laptops or tablets) are internally accommodated in the following manner:

- Laptops will be supplied by the exams office and will be distributed within the venue accommodating the exam
- Laptops will be fully charged prior to the start of the exam
- Exam laptops will not be supported with a network facility or access to the internet

Reviewed: December 2020

Next Review: November 2021

- The software available will include notepad and Microsoft word, the grammar and spelling facility will be disabled
- Candidate logons will not give administration rights
- Where possible seating arrangements will have safe access to power and will not be in a position to be viewed by other candidates

Invigilation

Invigilation arrangements relating to the use of word processors include the following:

- Invigilators will distribute the word processors to the relevant seats according to the seating plan and instructions by the Exams Officer
- Invigilators will check the battery capacity is sufficiently charged for the entire duration of the examination
- Invigilators will make sure the candidates understand the instructions for use of the word processor within the exam and complete the details required for the exam
- Record and resolve any issues that may arise during the exam
- At the end of the exam make sure the work is saved
- Accompany the candidate to the exams office where the work can be printed off in a secure place and verify with the candidate that the work is their own
- Check that the Form 4 word processor cover sheet has been completed and signed as per Exam Board regulations

An Awarding body cannot guarantee a word processed script will be processed unless a cover sheet has been included.

Appendix I

The criteria Gable Hall School uses to award and allocate word processors for examinations

The 'normal way of working' for exam candidates, as directed by the head of centre, is that candidates handwrite their exams. An exception to this is where a candidate may have an approved access arrangement in place, for example the use of a scribe/speech recognition technology.

The use of word processors

There are also exceptions where a candidate may be awarded/allocated the use of a word processor in exams where the candidate has a firmly established need, it reflects the candidate's normal way of working and by not being awarded a word processor would be at a substantial disadvantage to other candidates.

Needs might include where a candidate has, for example:

- a learning difficulty which has a substantial and long term adverse effect on their ability to write legibly
- a medical condition
- a physical disability
- a sensory impairment
- planning and organisational problems when writing by hand
- poor handwriting

The only exception to the above where the use of a word processor may be considered for a candidate would be

- on a temporary basis as a consequence of a temporary injury at the time of the assessment
- where a subject within the curriculum is delivered electronically and the centre provides word processors to all candidates

Arrangements for the use of word processors at the time of the assessment

Appropriate exam-compliant word processors will be provided by the IT department in liaison with the ALS lead/SENCo and the exams officer. In exceptional circumstances where the number of appropriate word processors may be insufficient for the cohort of candidates approved to use them in an exam session, the cohort will be split into two groups. One group will sit the exam earlier than or later than the awarding body's published start time. The security of the exam will be maintained at all times and candidates will be supervised in line with section 7 of ICE.
